PROFILE

I am a software engineering student with a passion for web development. I am a quick learner and always looking to expand my knowledge and skills in the field. With my dedication and enthusiasm. I am pursuing a degree in software Engineering and am interested in software development. My ultimate career goal is to become a full-stack Software Engineer and create cutting-edge software products that can make a difference in people's lives. In my free time, I enjoy reading books, playing and talking with my friends, and dreams of starting my own technology company.
